BUILDING SAFETY CERTIFICATE

Name of Building: - Oxford School at V.P.O Kotli under Vidyaniketan Educational Society Kotli.

For structural adequacy, structural design needs soil safe bearing capacity/seismic forces to take into consideration and for quality work i.e. water cement ratio, compressive strength and other quality control measures building should be taken care of during the time of construction, which cannot be ascertained at this stage.

However, the building has been inspected by the Junior Engineer, Bhargaon Section on dated 16/10/2025 and it appears to be safe from the visual inspection, but the safety against Earthquakes, Landslides, unequal settlement of soil, commercial loadings and other natural calamities cannot be ascertained.

Whereas as per the report attached by Pradhan, Gram Panchayat Kotli, the construction of building was started in the year 2014 and completed in the year 2023, hence taking 2014 as base year, the present age of building is 11 years. Vide ACS (PW) office letter PBW (B) F (3)95/2019 Dated 5/5/2021, the building safety certificate is issued for 1 years from date of issue of this certificate.
